The whistle blows. The airship floats above the platform. Once you have boarded, it will be too late to turn back. This codex slips into your hand like a slightly worn passport, creased by the wind, already warm from previous journeys.

Aboard our paper airships, boilers rumble, gears creak, and behind the doors, in a padded lounge or a cabin without portholes, secrets lie hidden. Each story is a locked room, valves pages ready to give way. Here we conspire, we survive, we dream.

Our stories conjure up worlds overflowing with wonder, where Daring flirts with Danger and where passengers carry their courage, fears and dreams. We embark to explore, we stay to live. Because what matters is the experience of the journey and what it provokes.

Turn the page.
The moorings are cast off.

THE GUARDIAN OF SOULS

Aut.: Marie Fabre • Ill.: Umeshu Lovers

In the Kingdom of Asoraï, Ascension is an opportunity for the most devout believers to be assigned a guardian in the form of a golden sphere, proof of the god Veimoh blessing. At the dawn of his ceremony, Oïhan finally touches his dream with his fingertips. But when his turn comes, the unthinkable happens: the sphere that reveals itself to him is white, a symbol of heresy, condemning the young man to death. Behind this forbidden light, however, lies Ruu, a forgotten god, usurped a millennium ago. Between a frantic hunt, unlikely alliances and shocking revelations, Oïhan and Ruu, now bound together, discover that the fate of Asoraï now lies in their hands. But to save a world on the brink of extinction, they will have to break beliefs, chains... and the lies of the gods themselves. A heretic, a fallen god and a noble rebel will attempt the impossible to protect the Kingdom.

« Reading The Guardian of Souls was like watching an anime for me. It's a thrilling and poetic adventure. The author's writing style richly transports us to a dreamlike land, which reminded me a lot of Avatar: The Last Airbender. The central trio of Oïhan, Tennyra and Ruu form an endearing and funny found family. »

« In a word: wow. I don't think I've ever been so transported by a world before. *Le Fracas des envolées* is the kind of book that grabs you from the very first pages and doesn't let go. Linus is now certain: Lucia is alive. After finding the clues she left him, he sets off for Lucretia, the city of Arts, accompanied by Diana and Santino. Their journey promises to be eventful, as the train is already disrupted by adverse weather conditions and disturbing Flux interference. A treasure hunt according to Lucia's rules is now underway: following the steps is essential to finding her. But this expedition will confront them with their regrets and doubts, because in Lucretia, Art acts as a reveal. Along the way, they will encounter unexpected helpers and travel from city to city in the hope of unravelling the mystery of the forgotten Goddess that Lucia seemed to want to find...

« Indescriptible. C'est le mot qui me vient lorsque je repense à ce que ce livre m'a fait ressentir. J'ai été immergée dans l'univers petit à petit, avec une finesse et une élégance incroyables. J'ai l'impression d'être arrivée à la dernière page sans même m'en rendre compte, après avoir été traversée par mille émotions. Jusqu'au plus profond des astres m'a émue jusqu'au plus profond de l'âme. Je suis infiniment reconnaissante envers A.J. Twice pour ce récit si sensible, si bouleversant, si vibrant. »

1 - The Ambassador of Aragos

Led by Councils of matriarchs, the clans of Aragos are attacked by bloodthirsty brutes, determined to strip the Northern women of all power. As a last resort against these invaders, the Meslay Clan Council calls upon the goddess Elg, the Red Bear. In the blink of an eye, she awakens from her long slumber to appoint Isabelle Meslay as her spokesperson. The young woman leaves her home to join the court of His Majesty Elsberg Carmat in Caste, where her mission is to find allies. But no sooner has she arrived than the Southern people reject her, the Northern barbarian, the red devotee. With time running out and the king delaying negotiations, the ambassador is assigned the role of lady-in-waiting to Princess Marlyse. As beautiful as she is reckless, Marlyse desires only one thing: to prove that she is worthy of her father's throne. To do so, the princess sets her mind on passing the test that the Aragoians organise to designate their matriarchs. Horrified at the idea of initiating a stranger into this ancestral rite, Isabelle eventually resigns herself to it, hoping that, with Marlyse as her ally, she will convince the king to send troops to Aragos. Between alliances and plots, forbidden loves and visceral hatreds, Isabelle will seal the future of her people and, unknown to her, of the entire world.
